Visual Color Temp.

3000K

Soft White

Bright White

Daylight

Feature

- No UV or IR light radiation
- Light weight housing with excellent heat dissipation for high power operation
- Optimized heat fins with an artistic design
- Current controlled LED integrated driver inside
- Operation temperature:-20°C~50°C
- Long life
- Mercury and lead free construction
- Illumination uniformity
- Replaces the 25W R20 halogen
- Beam angle 25°
- One year warranty in commercial use / Two year warranty in residential use

Applications

- Residential
- Track Lighting
- Spot Chandelier
- Mood Lighting
- Accent Lighting

Usages

- Enclosed Outdoor
- Work Area
- Enclosed Ceiling
- Open Indoor
