**NOTES:**

- Contact Energetic Lighting for warranty information for any product listed above.
- Any products marked as Clearance shall carry the lesser of a 5 Year warranty, or the warranty period stated on the product specification sheet (PSS).
- All 10 Year warranties are based on the following operational criteria: operating a maximum of 16 hrs/day, and in a consistent ambient temperature of -29°F to 104°F (outdoor) and -4°F to 77°F (indoor), application specific for the products intended use. If the ambient temperatures fall outside the -4°F to 77°F range, product is warranted for 5 years according to the operating temperature range specified on the PSS.
- Warranty start date is date the product is invoiced to its original purchaser. Job specific exceptions must be made in writing and approved by Energetic prior to the date of sale.
- It is not a requirement to register to receive product replacement warranty coverage.
- Non-Integrated Accessories and emergency battery backup excluded which include, motion sensors, photocontrol components which if are added on after manufacturing of the product those components and accessories will follow the supplier's warranty.
- Warranty claim and registration forms, and complete Standard Product Warranty Coverage Terms and Conditions, are available at: <https://www.energeticlighting.com/Support>

\* Indicates 24 hour per day operation is allowed due to the 100,000 hour Osram driver inside

\*\*Energetic Model Generation Coding: E(Energetic) X(Generation) Example E1 is Energetics First Gen. E2(Second) E3(Third) ecetera. When Newer model is stated in the warranty in means the next generations. If E3 then E4,5,6,7 and so on.
