The Energetic E2ST Series DOT styled Roadway fixture reflects the traditional cobra head designs of legacy lighting, but delivers leading edge 135-140 LM/W performance. Offered from 40W to 150W, this series covers replacement of HID applications ranging from 100W MH/HPS to 400W MH/HPS. With optic options from Type II-L thru Type S-H, any roadway configuration can easily be supported. Classic DOT features include adjustable lens pitch positioning, bottom side control gear access, tool-less access covers, ANSI wattage plates, NEMA receptacles; SPD up to 20kV is available; and newer features such as 0-10V dimming occupancy sensing are available.

### Features
- Fully sealed assembly
- Tool-less bottom facing access
- Modern and efficient design
- Suitable for wet location use
- Mast Arm mounting friendly
- Available dusk to dawn sensor
- 0-10 dimming

### Applications
- Roadways
- Commercial locations
- Outdoor overhead
