

Energetic Lighting's ELFM and E2FMA series of LED round flushmount fixtures are designed to emulate the look and feel of traditional circline fluorescent tube flushmount fixtures, but operate at a significantly lower wattage. Fixtures are available in multiple diameter options, 9", 15", and 19", making the choice easy for any type of application. Installation is quick and simple when mounting into standard ceiling junction boxes, and may be installed on circuits with standard wall dimmers. Constructed with a durable steel housing body and LED lifetime rating of at least 50,000 hours, this rugged flushmount is designed for many years of reliable operation.
