

Energetic Lighting's E1FMAU series of LED round flushmount fixtures are designed to emulate the look and feel of traditional circline fluorescent tube flushmount fixtures, but operate at a significantly lower wattage. The 120-277 Vac universal input voltage allows for flexible applications. Fixtures are available in two diameter options 13" and 19" making the choice easy for any type of application. Installation is quick and simple when mounting into standard ceiling junction boxes, and may be installed on circuits with standard wall dimmers. Constructed with a durable steel housing body and LED lifetime rating of at least 50,000 hours, this rugged flushmount is designed for many years of reliable operation.

Features

- No UV or IR radiation
- Minimalistic and efficient design
- Mercury-free construction
- Suitable for Damp Location use
- Easy and secure installation
- 120-277 Vac, non-dimmable

Applications

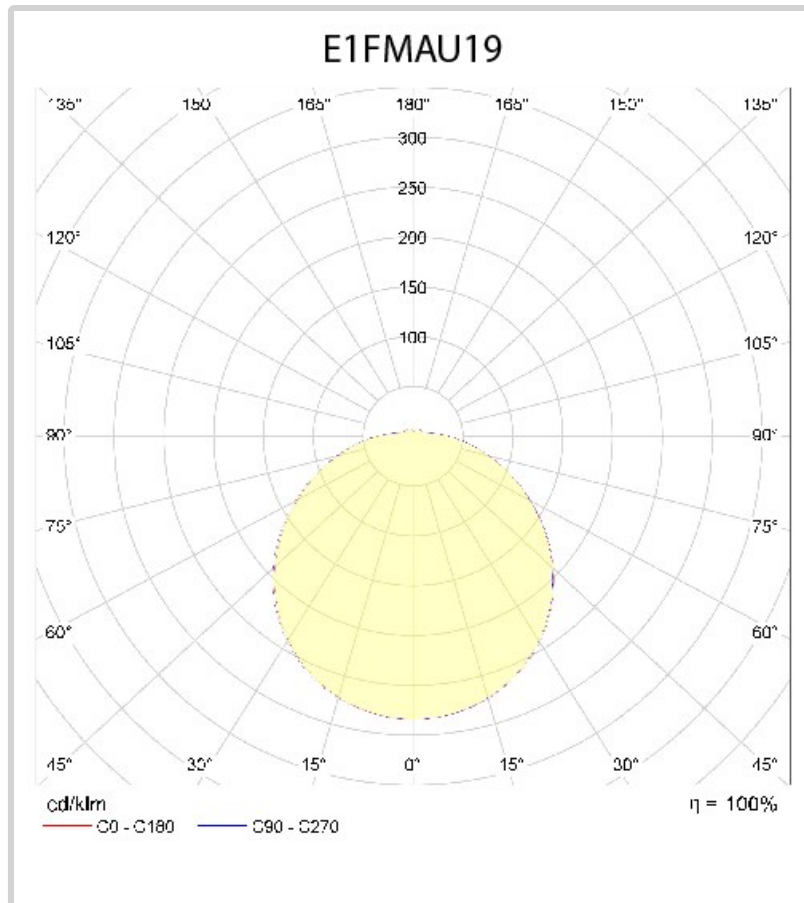

- Architectural decor
- Overhead task lighting
- Ambient room lighting
- General lighting
