

Energetic Lighting's PAR profile LED bulbs provide a superior replacement for all incandescent PAR lamp applications. An energy efficient integrated LED driver operating at about 1/6th the equivalent wattage while delivering the same lumen output. PAR30 bulbs are available in both short and long neck variants. The Par38 bulb is suitable for wet location installations where applications such as outdoor security lights are required. Dimmable down to 10%, and supplying a reliable light source for at least 25,000 hours backed by a 5 year warranty, these bulbs will be dependable for many years of service.

Features

- No UV or IR radiation
- Elegant and efficient design
- Mercury-free construction
- 40° beam spread light profile
- Dimmable to 10%

Applications

- General and Ambient lighting
- Damp Location Installation
- (Wet location for Par38)

Specification

Order Number	12005
Model Number	E3P207D-830
Beam Angle	40°
Optical Distribution	
Lumen Output	460 LM
Luminous Efficacy	71 LM/W
Input Power	6.5 W
Equivalent Wattage	50
Input Voltage	120 Vac
Power Factor	0.9
THD	
Color Temp (CCT)	3000 K
Color Rend (CRI)	84
Lifetime Rating	25000 hours
Warranty	5 Years
Dimmability	Dimmable to 10%
Operating Temp	-4 to 113 (°F)
Environment	Damp Location
Enclosed Install	Yes
Energy Star	Energy Star
Safety Cert	UL
Weight	0.21 LBS
Dimensions	3.3"(L)x2.6"(D)
Base Type	E26
